

## **Director of Licensing, Compliance & Regulatory Affairs**

### **The Company**

Hydro Green Energy, LLC is a for profit renewable energy project developer and integrator that designs, builds, operates and sells hydrokinetic and hydropower systems. Hydro Green Energy is America's first and only commercial hydrokinetic power producer.

Our headquarters are in Houston, TX. For more information, visit our website at [www.hgenergy.com](http://www.hgenergy.com)

### **Job Description**

The Director of Licensing, Compliance and Regulatory Affairs position is available immediately. This position is an excellent opportunity to work for a growth oriented company in an exciting and developing industry. You will be instrumental in providing strategic management of regulatory affairs and compliance functions, as well as directing licensing plans, regulatory policies, procedures, and internal controls with the Vice President of Corporate Affairs. In addition, you will oversee regulatory audits and collaborate with the executive team on decisions related to regulatory systems implementations, management, and upgrades. As the Director, you will help manage relationships with federal, state, and local stakeholders as it related to licensing and compliance. The Director will identify business risks associated with different regulatory processes and determine best practices to mitigate these risks, and to ensure timely development of a number of Hydro Green Energy projects throughout the United States. The candidate will manage field assignments, prepare technical reports and license applications, and manage the submission of regulatory documents.

### **Qualifications:**

- M.S. In biology, aquatic science or equivalent, or;
- Minimum of 5 years of hydropower licensing experience
- Specific experience related to NEPA and other regulatory compliance for hydropower projects
- Experience with TLP, ILP, ALP, Amendment Process required
- Energetic with a great work ethic
- Self Starter with excellent leadership skills and ability to meet deadlines
- Outstanding management skills
- Excellent writing and public communication skills
- Prepared to tackle any task, big or small
- Ability to manage multiple projects with deadlines simultaneously
- Motivated, independent and organized personality
- Able to multi task and wear different "hats"
- Self driven and resourceful, and prepared to work overtime at times
- Exceptional MS Excel and MS Office skills
- High level understanding of systems implementation is also preferred
